

# **Northwestern School Corporation Reading Curriculum**

## Philosophy

Northwestern School Corporation will encourage the development of each student's full reading development through the integration of home, school, and community resources. It is our hope that every student will be successful in reading and will become an independent reader. With carefully planned reading instruction students will learn strategies that will support their continued growth as life long learners. The overall goal for reading is to develop students who are self motivated to read for both pleasure and information.
